More than 2,000 kolkhozes have been organized in the Republic to include nearly half of the peasant economy. Preparations for successful spring sowing and all 1949 agricultural work are being carried on in the kolkhozes. Considerable assistance is being rendered by city workers, Party, and soviet organizations of the Republic.

During the first quarter, 15 new MTSs were organized in the Republic. The capacity of the MTS tractor park increased 49 percent in the first quarter of 1949 as a result of the delivery of a large number of new tractors.

On 5 April, MTSs had fulfilled the plan for the repair of tractors 101 percent; including capital repair, 119 percent. Pyltsama, Iykhvi, and Rapla MTSs are behind schedule in tractor repair.

The plan for tractor repair was fulfilled 106 percent by sovkhoses of the Ministry of State Farms. The plan for trailer repair was also completed.

Sovkhoses have provided for assorted sowing in all spring sowing. During 1949, 76 percent more mineral fertilizer for the spring sowing was delivered to the Republic than in 1948.

During the first quarter of 1949, the volume of capital work increased 11 percent over that of the first quarter of 1948 in all branches of Republic economy.

Capital investment increased considerably in the shale mining, textile, food, local, electrical, and timber and paper industries, and in the Ministry of Education, the Ministry of Health, the Ministry of Higher Education, the Administration of Arts, the Radio Committee and other organizations.

The plan for capital construction was fulfilled by the following: "Estonalane" Combine, Ministry of the Food Industry, Ministry of Local Industry, Ministry of the Shale Chemical Industry, Ministry of Civilian Housing Construction, Ministry of Construction Materials Industry, Ministry of Health, Ministry of Trade, Roads Administration, Administration of Arts, and other organizations.

Republic enterprises as a whole, however, completed only 88 percent of the first-quarter capital-construction plan as a result of poor utilization of funds for capital construction by the Krengol'm Textile Mill, Estonenergo, Ministry of the Fish Industry, enterprises of the petroleum industry, and the Main Administration of Automobile Transport.

A total of 11,000 square meters of housing was constructed and restored during the first quarter of 1949 by ministries, administrations, enterprises, and by the population itself with the aid of State credit.

The Estonian Railroad System fulfilled the transport plan 101 percent in March 1949. In comparison with March 1948, transport increased 20 percent on wide-gauge railroads and 22 percent on narrow-gauge roads.

The 1949 first-quarter transport plan was completed 98 percent by the railroad, including shale 88 percent, petroleum 100 percent, ferrous metals 100 percent, timber 109 percent, and cement 123 percent.

The sale of industrial goods and food products to the population increased greatly after the reduction of prices by decree of the Soviet of Ministers USSR and the TsK VKP(b).

In March 1949, sales by trade organizations in the city of Tallin increased over February 1949 as follows: cotton textiles, 20 percent; woolen textiles, 39; sewn articles, 47; knitted goods, 21; leather shoes, 30; haberdashery, 21; meat products, 51; and butter, 95 percent. The sale of groats, macaroni, and vegetable oil increased considerably.

Ninety-five percent of the 1949 first-quarter trade-turnover plan was completed by individual trade organizations as follows:
